

GERMANEDGE – CREATING THE PERFECT FLOW.

Germanedge: Our vision

The future of digital production won't suddenly arrive overnight. You don't have to be surprised by it. But one thing's for sure: those who step into the future too late will no longer be competitive.

Germanedge helps you to shape the future of your business now. With our innovative technologies, we develop software solutions for Industry 4.0. that enable our customers to produce more intelligently, more flexibly, and more sustainably. Maximum efficiency at all times and at every point of production.

Germanedge: The facts behind

- 150+ years of joint experience
(30 years per company)
- Hundred of years in product development
- 370+ employees
- Significant ecosystem (40+ countries)
- 600+ active customer
- 6 continents

Germanedge: Our portfolio

By increasing the productivity of digital production in all application areas, we enable national and global competitive advantages – as well as the tools for survival in the digital future. Our broad product portfolio encompasses, among others, the following areas

- Manufacturing Execution System (MES),
- Warehouse Management System (WMS),
- Advanced Planning & Scheduling (APS),
- Advanced Quality Management (AQM),
- and Manufacturing Operations Management (MOM).

Germanedge: PaaS EdgeOne

With its EdgeOne platform, Germanedge offers a platform architecture designed specifically for production. It enables our client companies to implement their digital strategy across multiple plants and internationally – intuitively, scalably, and according to the state of the art, all from a single source.

EdgeOne integrates all software products of the Germanedge product providers GEFASOFT, New Solutions, Objective, ORSOFT, and QDA SOLUTIONS as well as third-party providers in a unified production workplace, which not only offers a great depth of information, but also has a state-of-the-art user interface that makes it easy for the user to operate the software application. After all, in the end it's people who will work with the digital production of the future.

Germanedge is creating the future of connected production today, unleashing the potential of MOM, IIoT, and Industry 4.0.
